- Node.js · Prisma · PostgreSQL
- Cloudflare Workers · D1

Introducing my portfolio: web development, UI/UX design and digital solutions

Dear Client, Partner or Collaborator,

I'm Nabin Babu Uranw, an independent full-stack developer and UI/UX designer based in Inaruwa, Sunsari, Nepal. I design, develop and maintain websites, web applications and digital products, and I'd like to introduce my portfolio at nabinbabuuranw.com.np, where you can see what I build and how I work.

My focus is simple: websites and software that work properly, look considered and are easy to use. I care about functionality, performance, security and user experience in equal measure, from the first layout to deployment and the updates that follow. Much of my work is practical software for Nepal, built around how people here actually work, with Bikram Sambat dates and 13% VAT.

SELECTED WORK

01 **NEXA Music Distribution**
A music distribution platform: a public website, an artist portal and an admin console.

02 **Byawastha**
An all-in-one management system (SaaS), now in its first phase, with multi-tenant roles and permissions.

03 **Palo & Chukta**
Appointment booking for clinics and salons, and VAT-ready billing and receivables for small businesses.

04 **Nepali Date**
A free Bikram Sambat ↔ AD date converter, released as a web app and a lightweight JavaScript library.

05 **IEBS website demo**
An independent website demonstration for a school in Inaruwa, with an admin panel for notices, gallery and staff.

06 **Aama Collection & Trishna**
A fashion e-commerce store, and a restaurant website concept with an online menu.

I work with React, Next.js, TypeScript and Tailwind CSS on the front end, and Node.js, Prisma, PostgreSQL and Cloudflare Workers with D1 on the back end, building sign-in and role-based admin dashboards, API integrations, SEO-ready pages and phone-first responsive layouts. My public code is at github.com/nabinbabuuranw.

If you're planning a new website, a redesign or a digital solution for your business, school or organization, I'd be glad to hear about it. Explore my work at nabinbabuuranw.com.np, or reach me by phone or WhatsApp on +977-9764465688 or by email at nabinuranw333@gmail.com. I'll listen to your requirements and reply with a clear, honest plan.

Sincerely,

Nabin Babu Uranw
